Features

Compact and small in footprint

Combining unique design and innovative features, the DR-C225 II offers affordable scanning without compromising on performance. Its vertical U- turn Path transport system means the DR-C225 II has one of the footprints in its class.

Various types of documents can be easily scanned with two ejection path.

U-turn path scan and eject standard-paper documents without using additional space.

Straight ejection path for thick document sheets,

Fast and reliable

The DR-C225 II is capable of high-speed 1-pass duplex scanning at 25 sheets per minute. The built-in ultrasonic sensor accurately detects when more than one sheet is fed simultaneously and can prevent important information from being left out.

Easier scanning operation

A Full Auto Mode is available with the colour mode, page size, resolution and text orientation automatically determined based on the contents of the document. This mode applies the best settings and allows you to scan documents that contain pages of varying type under conditions.
