Features

Powerful Image Processing Independent of PCs

Incorporated with the dynamic DR Processor, DR-G2 series maintains high quality scanning even with high scanning settings independent of the performance of personal computers.

Ultra-fast and High Performance

The DR-G2 series is tailored to perform high-speed, reliable scanning with its advance feeding and transport capabilities. Delivering a remarkable 140ppm scan and up to 70 000 scans a day, the DR-G2 series boosts outstanding productivity to expand your business potential.

Network Capability

The DR-G2 series supports Network scanning via LAN connection. Via the network, users can share a single scanner to perform scanning tasks efficiently.

*This feature is only available for DR-G2110 and DR-G2140.
